

BETTER LIGHT MOVE STARTED

Chamber of Commerce Se-
cures the Appointment of
Councilmanic Committee.

Cooperation of the city council this morning was requested for the establishment of a better street lighting system on the business streets of the city by a committee from the chamber of commerce. Alderman R. B. Stevens, who presided at the council meeting in the absence of Mayor Tom Lee, appointed a committee consisting of Aldermen J. P. O'Connor and J. W. Fisher to act in cooperation with the chamber of commerce committee and lighting experts in preparing plans and estimates of such a system.

Petition for City Aid.
Frank Alms, chairman of the chamber of commerce street lighting committee, presented the request of that body for aid from the city. Julius Krakauer explained that the city could not be uniformly lighted under private contract. Any street lighting plan should not only be in cooperation with the city council, but under the direction of the city. When done, a comprehensive survey by experts should be made first. The General Electric company offers a preliminary plan without cost. El Paso now is one of the poorest lighted cities, while it should be one of the finest. "Individuals won't put up lights," said John M. Wyatt. "It must be done from the public funds."

200 Lights Contracted for.
Alderman J. W. Fisher announced that the city has just contracted for 200 60-watt incandescent lamps in the business district. E. Burt Orndorff said the present system of street lighting is out of date. "Put the lights which are in the center of the streets so they will illuminate the sidewalks, and you will make the lights do double duty. Lights are not necessary at the center of the street intersections. Standards should be placed on ornamental pedestals at each corner."

"We're making such rapid strides in other things, that we should not fall behind in this improvement. It will save the city money if we can install the lights while the railway is placing its wires underground."

Stevens' Opinion.
"Our expenses are high, and our tax levy low," said Alderman R. B. Stevens. "I believe the business men could better accomplish their purpose by working with the street railway company," said Alderman R. B. Stevens.

"The chamber of commerce committee believe this is the proper time for the institution of a new system," said R. F. Burgess. "The committee believes it best for the city to purchase a plan of street lighting, to submit to the council. This service is without cost. Then will be the time for the council to say whether the city can afford it. The problem of lighting a city is a function of the city government, and not of the business men. El Paso should set herself a high standard, and then live up to it, as she usually does in other matters. The proposition of the chamber of commerce was referred to Aldermen J. P. O'Connor and J. W. Fisher."

Health Report.

MORE KARAKULS FOR HIS SECTION

Dr. Young Fails to Reach
Sheep Country But Places
Orders for Them.

Dr. C. C. Young, of Karakul sheep fame, who has just returned from Russia, says he was unable to get south of Petrograd in his request for sheep, but that he commissioned an agent to buy 12 unrelated rams and ten unrelated ewes in Bessarabia and ship them by way of Harbin, Siberia, to San Francisco and El Paso. Special permission to import them through San Francisco has been secured, he says. The firm which Dr. Young has organized to handle the Karakul sheep proposition here now has 5000 sheep on a ranch which he says it has acquired near Alamogordo. These sheep are to be crossed to Karakul rams, with a view to eventually breeding up the highest grades of Karakul.

Dr. Young is in receipt of a letter from T. W. Tomlinson, secretary of the American National Livestock association, at Denver, suggesting that the doctor send one of his bucks to Colorado for breeding purposes on the Tomlinson ranch. "I was out to see the farm yesterday and looked over your Karakul lambs," the letter said. "They came late as you know, but they are as fine specimens as I ever saw. We have four especially nice lambs, three ewes and one buck from our breeding flock. The ewes and the buck are black as coal; the other ewe is quite white with Karakul markings."

for the week showed a total of 30 deaths and 26 births. The report showed 46 cases of contagious disease, including five cases of typhoid fever, two of measles, ten of scarlet fever, four of smallpox, 11 of typhoid fever, from the city of El Paso. Dr. Young is in receipt of a letter from T. W. Tomlinson, secretary of the American National Livestock association, at Denver, suggesting that the doctor send one of his bucks to Colorado for breeding purposes on the Tomlinson ranch. "I was out to see the farm yesterday and looked over your Karakul lambs," the letter said. "They came late as you know, but they are as fine specimens as I ever saw. We have four especially nice lambs, three ewes and one buck from our breeding flock. The ewes and the buck are black as coal; the other ewe is quite white with Karakul markings."

Committee on Car Service.
A committee was appointed to confer with the El Paso Electric Railway company with a view to improving car service generally. Aldermen O'Connor, Fisher and Stevens were appointed members of the committee. The assessment ordinance property on Leon street, from Improvement district No. 1 to the north line of Second street, was passed.

Organization Is Formed.
Let there be light! That was the cry that went up from a meeting of El Paso citizens at the chamber of commerce Wednesday night. The meeting had been called by the chamber for the purpose of discussing plans for the securing of a better street lighting system for El Paso, especially in view of the fact that the streets downtown are being torn up for the installation of an underground wire system.

Has Poorest Lighting.
"El Paso today is the poorest lighted city in Texas," declared President R. B. Orndorff, as he called the meeting to order. "Now that a better system can be installed at less cost, it should be a matter of civic pride that we do our utmost to see that our lighting is improved."

James L. Marr suggested that the city engineer be consulted for the technical details of a plan. A Schwartz said it was not possible to assess the property holders on a pro rata basis, measured by their front footage, for the installation of the lights, with the understanding that the city would maintain the lights afterward.

"The city could get a flat rate from the light company much more cheaply than the individuals could," pointed out Mr. Schwartz. "Instead of collecting the money from the property owners the company would look to the city for the payment of the bills."

Not a Private Matter.
John M. Wyatt observed that he could not conceive that the lighting of a city was anything other than a community matter and not a subject to be handled by individuals. It should be dealt with by taxation, and not by subscription, he said. Attorney E. C. Wade, Jr., assented to Mr. Wyatt's proposition.

Harry Turner pointed to the San Francisco "path of gold" as a good model for El Paso. N. R. Stansel, manager of the Southwest General Electric company, offered the services of W. D. Ryan, illuminating specialist of the General Electric company, of Schenectady, N. Y., in securing the best possible system for El Paso by means of suggestions and general cooperation. Mr. Ryan designed the street lighting system at San Francisco and other large cities.

Pvt. C. V. Wilcox, of company I, 21st Michigan, expressed himself as interested in street lighting problems, and was cheered when he announced that he intended to settle in El Paso as soon as he was mustered out.

Decide to Petition.
Upon motion of Mr. Wyatt, it was decided to petition the city council to include in El Paso a comprehensive, up-to-date street lighting, police and fire alarm system, and that the president of the chamber appoint a committee to call on the city council. The committee was empowered to add as members experts in architectural design and sculpture, to work with such expert as the council may select.

Committee Is Named.
The following were named by president Orndorff as members of a permanent committee to push the campaign for better lighting: Chairman, Frank Alms; vice chairman, John M. Schwartz; secretary, John M. Wyatt; E. C. Wade, Jr., J. C. Leibert, C. E. Kelly, Harry Turner, N. R. Stansel, Julius Krakauer, James L. Marr, Walter Kohlberg, Mrs. Mary H. Hammett, M. A. Caples, Mrs. C. N. Buckler, H. D. Slater, R. C. Davis, Richard F. Burgess, Benjamin Bruhn, H. B. Stevens, W. B. Banner, C. H. Bassett, U. S. Stewart and Charles Davis.

RED SOX SOLD FOR \$675,000

Lannin Disposes of Cham-
pionship Team to Harry
Frazee and H. Ward.

Boston, Mass., Nov. 2.—The world's champion Boston American baseball team was sold Wednesday night to Harry H. Frazee of New York and Hugh Ward of Philadelphia for \$675,000. Joseph J. Lannin, of this city, former owner of the club, who announced the sale at a dinner given to the new owners and newspaper men, said the papers had been signed less than half an hour before.

Mr. Frazee and Mr. Ward are both identified with theatrical interests, the former being principal owner of the Cort Theater of Chicago and the Longacre Theater of New York. The new owners gave few details as to definite plans for the club, but said: "When we were in the thing we did not buy a cheap team. We bought champions. We were interested in the club only because it is champion and would not have considered it otherwise."

Frazee Wants Carrigan.
Mr. Frazee will take direct charge of the team's affairs, it was said. The Red Sox are at present without a manager, William Carrigan, who has guided the team for the last three years, having announced his retirement at the conclusion of the world's series games last month. Mr. Frazee said he would hold the position of manager open for Carrigan and hoped he would consent to lead the team another year. The executive staff of the club will be retained intact.

Negotiations Pending a Week.
Negotiations for the transfer have been pending a week. The sale of the papers were not signed until tonight. The sale includes the franchise, players, contracts and the real estate at Fenway Park. Mr. Lannin has owned the team three years and during that time the Red Sox have won the world's series. He acquired possession in 1914, when the club finished second in the American league race, Philadelphia winning the pennant.

Lannin to Enter Hotel Business.
After announcing the sale, Mr. Lannin said he intended to enter the hotel business in this city where he already has large real estate holdings. He is also owner of a hotel in Garden City, Long Island, and has a controlling interest in the Hotel team of the International league.

Mr. Frazee's acquisition of part ownership in the Red Sox club probably makes him the youngest baseball magnate in the country. He was born in Peoria, Ill., June 23, 1886. He managed a baseball team in that city when he was 21 years of age, but neither he nor Mr. Ward has been connected with major league baseball before.

CHURCH TOSSERS TO PLAY ON SATURDAY

The Church basketball teams will meet at the Y. M. C. A. on Saturday evening of this week in the second series of games. At 8 o'clock the First Methodist will play the Calvary, Houston Square Baptists; at 8:30 the Westminsters and First Christians will line up; at 9 the Mexican Methodists and First Presbyterians will try conclusions; and the final game at 9:30 will be played by the First Baptists and Mutual Improvement association.

Every captain should see that his team is properly registered before six o'clock Saturday. Several teams are still to post their forfeits. President Beckwith has ruled that unless this forfeit is in a written form, the Saturday the offending teams shall forfeit their games.

There is every reason to believe that all of this week's games will be as close and exciting as were those of last week. Many of the teams have been strengthened by the addition of experienced players and several have met in hard practice periods this week. The doors will open at 7:30 for spectators and the floor will be cleared for practice at that time.

FINAL VOLLEYBALL GAMES.

But two more games remain to be played in the Business Men's Volleyball league. This evening Daniels plays against and on Saturday evening Schultz will be given one more opportunity to break Mackenzie's slide. The "Mac" players are confident of finishing the schedule without a single game lost and unless Schultz gets his best outfit on the floor it is all over except the cheering. Mac has won eight and lost none, Daniels has won four and lost four. Hunter has two and six, and Schultz has the same two and six.

News Notes From Movieland

By DAISY DEAN.

Alice Brady

LICE BRADY is the star of seven of the picture plays to be released by the World Film Corporation before the end of May, 1917. These are "Bought and Paid For," "A Woman Alone," "The Girl and the Wager," "Darkest Russia," "The Madness of Helen," "Sinners," and "Frou Frou."

At this rate of productivity as an actress Miss Brady is portraying one new role every month, which is regarded as something of a feat considering that the process covers a long stretch of time and is not operated under special pressure.

"Of course this is hard work," said Miss Brady. "Not sports, but regular, without the slightest break. I should call it inexorable, for its exertions are never relaxed."

"When I was very new to the speaking stage I realized that I lacked experience, and I thought the best way to acquire it was to join a stock company, where they changed the bill every week."

"The plays were changed so often that we scarcely knew one of the before we were plunging into another and, of course, we fell into a rut in spite of ourselves. And then, if we were imperfect in our lines and scenes, as best we could, and slipped through somehow."

"This cannot be done in the pictures. One phrase may be made to do duty for another in the speaking drama, but you cannot make a substitute expression or action take the place of the real thing. In other words it is impossible to stir a scene or any portion of a scene in the pictures because the camera is sure to catch you at it if you try."

Alice Brady.

She was so enthralled that the following day she applied to a motion picture company for a position. A "test" was made of her and it was so successful that she was immediately engaged as co-star with Frank Daniels in a series of comedies.

Sally Crute has joined Metro. Nanni Childers is understood to have left Vitagraph in a huff. And Augustus Phillips has joined Metro to play opposite Viola Dana.

KNOCKED DOWN AND ROBBED OF PURSE, GLOVES AND MONEY

Alighting from a Government Hill street car to go to her home, 428 La Jar street, Miss H. Buchouquette was robbed of her purse, containing a pair of gloves and a small amount of money Wednesday night at 10:30 o'clock at Jefferson and Hueco streets, by a man dressed in military uniform. When she objected to the man taking her purse, she was knocked down, according to her report to the police department Thursday morning. An investigation of the robbery is being made.

A. L. Woodward, of Deming, N. M., reported to the police Wednesday evening that his trunk, valued at \$150, had been taken out of the baggage room of the Union station, by a man who had stolen his baggage check. The robbery occurred sometime Wednesday morning from a car owned by H. Heist, of 131 Badlock Place, while it was standing at Campbell and Myrtle avenues, Wednesday, according to a report made to the police.

Fred J. Glaser, 2221 Italia avenue, asked the aid of the police Thursday morning in recovering a set of carpenter's tools which were taken from his working place, 315 South Santa Fe street, Wednesday evening.

A. K. McMiller, of the Elks' club, reported the loss of a coat Wednesday morning.
